MANAGEMENT DISCUSSION AND ANALYSIS

Indian Economy Overview

With the change of Government at the centre during FY 2014-15, the Indian economy has started showing signs of recovery. The reform measures initiated by the Central Government has lifted capital market sentiments, leading to the stock market index reaching new highs between June 2014 and March 2015. The Indian economy grew at a rate of 7.3% during 2014-15 due to an improvement in the performance of both services as well as manufacturing sectors. The decline in inflation by over 6 percentage points since late 2013 and also reduction of current account deficit from a peak of 6.7% of the GDP in the third quarter of 2012-13 to about 1% in the current fiscal year has reasserted India's reputation as an attractive investment destination compared to other emerging countries.

NBFCs in India

The share of NBFCs has steadily grown from 10.7% of banking assets in 2009 to 14.3% in 2014, thus gaining systemic importance. NBFCs have emerged as vital intermediaries and have competed strongly with banks and financial institutions. However, the last two years have been challenging for the NBFC sector with asset growth rates moderating, delinquencies rising and profits plummeting. The NBFC sector has been engaged in steady consolidation during the past few years and has been witness to weaker NBFCs gradually exiting, paving the way for a stronger sector. The number of NBFCs registered with the RBI went down to 12,134 in 2014 from 12,630 in 2010. However, the current decline in the number of registered NBFC is mainly due to cancellation of certificates of registration and migration of nonbanking finance companies that accept public deposits (NBFC-D) to the non deposit-taking category.

Opportunity and threats

NBFCs grew by 8% in 2013-14 but are expected to grow at 11-14%, beyond 2015. The positive trend of growth in the economy should lead to credit growth as well. The sluggish business environment has proven to be tough for NBFCs. This can be attributed to stagnation in infrastructural development, stunted growth, impulsive law making, bad political environment, and distressed business.

The RBI came out with its Guidelines for Licensing of Small Finance Banks in the Private Sector with the objective of furthering its initiative of financial inclusion. It is probable that some NBFCS may convert themselves into small banks.

One of the decisive steps announced in the Union Budget was to allow NBFCs registered with the RBI and those worth Rs. 500 crore or more, to fall under the purview of the Sarfaesi Act, 2002. This move would place NBFCs on par with other institutions like banks and other financial institutions.
